

# COMPACTO® BASIC W

Compact Seat with  
Mechanical Suspension

# TECHNICAL DATA

## COMPACTO® BASIC W

Despite having a mechanical suspension, the Compacto Basic W also boasts plenty of comfort and convenience. The seat can be set to three different heights using an easy-to-turn knob. It is adjusted to the user's weight by moving a lever in front until the marking in a plainly visible readout lines up with the selected seat height. This ensures that enough suspension travel will always be available.
